

Hole #1 Par 4
Tee Lengths
369/357/349/34
yards

A nice introduction to the start of your round. This hole moves slightly to the left with a front to back sloping green protected by bunkers on the right.

Tip: Aim your tee shot just right of the pine by the pond and fade it

Hole #2 Par 5 Tee
Lengths 531/519/512/430

A strong par 5 dogleg to the right. Trees protect the right side and also through the fairway. Your approach shot into this small green is challenging because of the large tree about 100 yards from the green and also the green is lower than fairway which often creates a blind shot.

Tip: Aim your tee shot right of the fairway bunkers, and use less club on your approach shot because of the hill in front of the green will add distance.

Hole #3 Par 3
Tee Lengths
188/181/173/163

A challenging Par 3 due to its length, the green is receptive to a well struck shot. This green can be difficult to read because of the beautiful tall trees that cascade shadows on the surface.

Tip: Short is OK, it is an easy up and down from the front,

Hole #4 Par 4
Tee Lengths
403/398/392/348

A straight par 4 that has a rolling fairway. A fairway bunker on the right protects that side and trees down the left protect the errant tee shot to the left. The green is protected by 2 bunkers.

Tip: The hardest shot in golf is required off the tee, the straight shot. Hit it straight to set

Hole #5 Par 4
Tee Lengths
400/393/386/356

A Par 4 that plays longer than it is on the card, this hole plays into the prevailing winds from the west and moves slightly right to left. The green is longer and narrow and has some deceptive breaks.

Tip: Aim just left of the fairway bunker and hit 1 extra club into this green.

Hole #6 Par 4
Tee Lengths

365/338/331/276A great short par 4 that will challenge your golf knowledge. This small round green requires a precision approach shot that cannot be bounced up into because of the rough we grow around the entire green.

Tip: Driver might not be your best option off the tee, play to a yardage

Hole #7 Par 3
Tee Lengths
199/187/181/110

A very difficult Par 3 that is canvassed by trees and plays uphill. The green is a very narrow, long green that slopes away from the tee box. This hole will challenge your long iron capabilities or your favorite fairway wood or hybrid.

Hole #8 Par 5 Tee
Lengths
577/510/467/333

A difficult driving hole, you must carry a ravine to land your drive in the fairway. The right side is protected by a large oak and the left side is guarded by trees and wetlands. Use all you have on your 2nd shot to give your approach shot into this green as easy as possible. The green is divided by a large tier that makes navigating your putts difficult.

Hole #9 Par 4

Tee Lengths
428/415/377/366

A tricky tee shot on a left to right shaped hole. Out of bounds protects this hole on the left and trees protect the right side. The approach shot is into a raised green which is difficult to see the landing surface from the fairway.

Hole #10 Par 3

Tee Lengths
138/129/127/125

This short yet challenging par 3 is a difficult hole. The green slopes front to back and is protected on each side by bunkers. Out of bounds is left and behind the hole, and there is a lot of breaks in the green.

Tip: Select a club that will not spin too much, if you spin the ball, it will

Hole #11 Par 5 Tee

Lengths 485/480/477/387

A short par 5 that will challenge you to make par. With a heavy tree stand down the left side and established trees down the right side, a premium is placed on your tee shot. Guarding the left side is a fairway bunker as well that will catch the mis-hit tee shot. Big hitters can go for it in 2, but use caution as there is a hazard and obstacles to the right of the green and to the left of the green is a forest.

Hole #12 Par 3 Tee

Lengths
186/137/108/97

The first of back to back par 3's, this hole varies in length and can play drastically different depending on your choice of tees. A pond separates the teeing area and the green, a large oak tree protects the left side of the green as well.

Hole #13 Par

3 Tee

Lengths
184/170/122/92

Our signature hole on our scorecard, #13 is a very pretty par 3 set in a very natural setting. It is difficult tee shot that is all

carry over natural wetlands into a good sized green that you cannot see from the tee box. Be wary of the 2 bunkers protecting this green as well, one is on the left side of the green and the 2nd is a strategically placed bunker

Hole #14 Par 4 Tee

Lengths 390/362/326/316

This par 4 is easy on the eyes but tough on the scorecard. Set with woods and OB on the left, and woods and wetlands on the right, there is a premium on your tee shot. Once safely in the fairway, there is no time relax, an intimidating deep bunker protects the front of this well designed green that is difficult to putt. Tip: Use an extra club into this green as the front bunker creates a depth perception problem.

Hole #15 Par 4 Tee

Lengths
366/398/389/320/294

This dog leg left par 4 can test your skills as an accurate driver. A pond on the right of the fairway and trees through the fairway make this a tough driving hole. A birdie can be made, but only if you play smart and hit the green in regulation. If you miss the green, a difficult up and down awaits you.

Tip: Aim your tee shot at the right edge of the pond

Hole #16 Par 4 Tee

Lengths 398/389/320/320

A straight forward par 4 that sets up the final 2 holes. Mature trees line both sides of the fairway and the green is well positioned to receive quality approach shots.

Tip: Usually playing downwind, there is no reason to hit driver. Use your 3 wood and get it into the fairway and make

AND GPS YARDAGE TO THE GREENS AND THE HAZARDS.

Hole #17 Par 5/4
Tee Lengths
 466/459/389/333

This par 5 plays back into the prevailing wind and is slightly uphill. It is an opportunity to make a birdie before the final hole. Large trees down the left protect that side of the fairway and a fairway bunker protects the right side. The green is well protected by bunkers as well and requires an accurate 2nd shot if you are trying to reach the green in 2.

Tip: Let it out! Attack

Hole #18 Par 5 Tee
Lengths 528/518/469/469

Our closing hole at Fenton Farms will wrap up our enjoyable playing experience. This challenging par 5 will test every closing shot. Your tee shot is guarded by large trees on the left, and wetlands to the right. There is also a large fairway bunker on the right side. Your 2nd shot is difficult because it sets up your approach into the most difficult putting surface on the golf course. This green slopes back to front and sideways to challenge even the most skilled putters. Walk away with par here and feel good about your round!

Tip: Avoid the green side bunkers
